HOW TO TAKE CARE OF MY FABRIC

Furniture upholstery fabric is a textile that gives furniture a comfortable and stylish look. It comes in all kinds. From soft materials like velvet to sturdy fabrics like linen. Good upholstery not only makes furniture more beautiful, but also provides extra comfort and durability. This gives every piece of furniture a personal and luxurious look. In this chapter, we explain how you can take care of your furniture's upholstery.

BEFORE USE

Before using your furniture, you can apply an extra layer of protection with the **Protector** from the **Higold Textile, Rope & Fabrics Care Kit**. This will create a protective layer on your upholstery and keep your upholstery in top condition. The **Protector** comes in a spray can and can be applied to the upholstery with this. Spray the **Protector** onto the fabric in even lines.

HIGOLD TEXTILE ROPE & FABRICS CARE KIT

THE FABRIC ON MY FURNITURE IS DIRTY

To clean the fabric, dust the surface with a Hoover. Then spray the fabric liberally with the **Cleaner** from the **Higold Textile, Rope & Fabrics Care Kit**. Spread the product with a cotton flannel and let it soak in for 3 minutes. Then clean the fabric with a clean white cotton flannel. Use lukewarm water and make circular movements. After cleaning, let the fabric dry completely and vacuum it again. Now your furniture is ready for use again. Use the **Protector** from the **Higold Textile, Rope & Fabrics Care Kit** to provide your upholstery with a new layer of protection.

A STAIN IN MY FABRIC

If liquid is spilt on your upholstery make sure to wipe it up as soon as possible with an absorbent cloth. A solid substance should be scraped away as quickly as possible with a spoon, for example. Then spray the stain with the **Cleaner** from the **Higold Textile, Rope & Fabrics Care Kit**. Let it soak for 3 minutes, then you can use a clean cloth to remove the stain. Use the **Protector** from the **Higold Textile, Rope & Fabrics Care Kit** to provide your upholstery with a new layer of protection.

THE FABRIC ON MY FURNITURE IS FLATTEND

Flattening is caused by, moisture, weight and body heat. To make crushed fabric beautiful again, slightly moisten the crushed part of the fabric. Then brush the fabric again with a soft brush. **Caution! Brush with the nap of the fabric.**

TIPS FOR ENJOYING YOUR UPHOLSTERY AS LONG AS POSSIBLE

- **Vacuum** the fabric regularly with a soft brush.
- Try to avoid long **exposure to direct sunlight**, if possible. This way there is less risk of the fabric discolouring.
- Take care with **sharp objects**, such as keys or pets with sharp nails, as these can damage or tear the fabric.
- By **changing** furniture regularly, you will avoid uneven wear of your chairs due to uneven frequency of use.

THE FABRIC ON MY FURNITURE IS PILLING

Pilling can occur due to friction. This will diminish over time. The pellets/pills created while pilling a fabric are easy to remove with a lint or pill comb.

HOW TO TAKE CARE OF MY CARE FABRIC

Care fabric is a specially developed textile used in the care sector. It is designed to be hygienic, durable and easy to clean, making it suitable for hospitals, nursing homes and other healthcare environments. The fabric is often antibacterial, fire-retardant and moisture-resistant, contributing to a safe and clean environment for patients and caregivers.

BEFORE USE

Before using your furniture, you can apply an extra layer of protection with the **Protector** from the **Higold Textile, Rope & Fabrics Care Kit**. This will create a protective layer on your upholstery and keep your upholstery in top condition. The **Protector** comes in a spray can and can be applied to the upholstery with this. Spray the **Protector** onto the care fabric in even lines.

- Take care with **sharp objects**, such as keys or pets with sharp nails, as these can damage or tear the fabric.
- By **changing** furniture regularly, you will avoid uneven wear of your chairs due to uneven frequency of use.

HOW TO CARE OF MY SMOOTH LEATHER

Leather is a natural material used to cover furniture, clothing and accessories. It is known for its durability, luxurious appearance and ability to only get more beautiful over time. In the healthcare sector, leather is sometimes used for its easy cleaning and resistance to wear and tear. It offers comfort and a stylish finish to various products.

BEFORE USE

Before using your furniture, you can apply an extra layer of protection to the leather with **Care & Protect** from the **Leather Care Kit**. This will create a protective layer and keep your leather in top condition. Apply **Care & Protect** to a lint-free cloth and rub the leather cream onto the surface and spread it evenly. Let it dry for 15 minutes and then rub with a clean cloth.

LEATHER CARE KIT

THE SMOOTH LEATHER ON MY FURNITURE IS DIRTY

When your smooth leather is soiled, apply the **Cleaner** from the **Leather Care Kit** to the **Double Action Sponge**. This has two sides; the orange one for normal cleaning and the grey-white one for heavy soiling. Gently squeeze the sponge to create foam and clean the leather with the sponge. Then rub the leather clean and dry with a clean soft cloth. Let the leather dry completely and reapply **Care & Protect** for a new layer of protection on your leather.

TIPS FOR ENJOYING YOUR LEATHER FURNITURE FOR AS LONG AS POSSIBLE

- Never use **aggressive cleaning agents** when cleaning the leather.
- Try to avoid **long exposure to direct sunlight**, if possible. This will reduce the risk of discolouring the leather.
- Beware of **sharp objects** such as keys or pets with sharp nails, as these can damage or tear the leather.
- By **changing seats** regularly, you will avoid uneven wear of your seats due to uneven frequency of use.

HOW TO TAKE CARE OF MY BRUSHED LEATHER

Leather is a natural material used to cover furniture, clothing and accessories. It is known for its durability, luxurious appearance and ability to only get more beautiful over time. In the healthcare sector, leather is sometimes used for its easy cleaning and resistance to wear and tear. It offers comfort and a stylish finish to various products.

BEFORE USE

Before using your furniture, apply an extra layer of protection to the leather with the **Leather Protector** from our **Brushed Leather Care Kit**. This will create a protective layer and keep your leather in top condition. Spray the **Leather Protector** in even strips on the leather at a distance of about 20-30 cm. Then let it dry for 12 hours.

THE BRUSHED LEATHER ON MY FURNITURE IS DIRTY

The **Brushed Leather Care Kit** contains two products for cleaning your sanded leather; **Vintage Lotion** and the **Nubuck Sponge**. For light soiling of your sanded leather, use the **Nubuck Sponge**. With this sponge, you can gently brush the leather until the dirt disappears and the original appearance of the leather is restored. For heavier soiling, we recommend using **Vintage Lotion**. Apply the lotion to a lint-free, clean white cloth or flannel. Clean with this in circular movements. Take a clean section of the cloth with each new area. Let the leather dry completely and reapply **Leather Protector** for a new layer of protection on your leather.

BRUSHED LEATHER CARE KIT

TIPS FOR ENJOYING YOUR LEATHER FURNITURE FOR AS LONG AS POSSIBLE

- Never use **aggressive cleaning agents** when cleaning the leather.
- Try to avoid **long exposure to direct sunlight**, if possible. This will reduce the risk of discolouring the leather.
- Beware of **sharp objects** such as keys or pets with sharp nails, as these can damage or tear the leather.
- By **changing seats** regularly, you will avoid uneven wear of your seats due to uneven frequency of use.

HOW TO TAKE CARE OF MY ARTIFICIAL LEATHER

Faux leather, also known as imitation leather or skai, is a synthetic material that mimics the look and feel of real leather. It is widely used in furniture and accessories because of its affordability, durability and easy maintenance. In the hospitality industry, faux leather is popular because it is easy to clean, resistant to moisture and wear, while giving a stylish and professional look.

BEFORE USE

Before using your furniture, you can apply an extra layer of protection to the artificial leather with the **Care & Protect** from our **Leather Look Care Kit**. This will create a protective layer on your imitation leather and keep your imitation leather in top condition. Spray the **Care & Protect** at a distance of about 20-30 cm in even strips on the artificial leather. Then let it dry for 12 hours.

THE ARTIFICIAL LEATHER ON MY FURNITURE IS DIRTY

The **Leather Look Care Kit** contains two products for cleaning your imitation leather; **Care & Protect** and a **Double Action Sponge**. For light soiling of your imitation leather, use the **Double Action Sponge**. It has two sides; the orange one for normal cleaning and the white one for heavy soiling. With this sponge, you can gently brush the artificial leather until the dirt disappears and the original look of the artificial leather is restored. For heavier soiling, we recommend using **Care & Protect**. Apply the lotion to a lint-free, clean white cloth or flannel. Clean in circular movements. Take a clean part of the cloth with each new area.

LEATHER LOOK CARE KIT

TIPS FOR ENJOYING YOUR ARTIFICIAL LEATHER FURNITURE FOR AS LONG AS POSSIBLE

- Never use **aggressive cleaning agents** when cleaning the artificial leather.
- Try to avoid **long exposure to direct sunlight**, if possible. This way there is less risk of the artificial leather discolouring.
- Be careful with **sharp objects** such as keys or pets with sharp nails, as these can damage or tear the artificial leather.
- By **changing furniture** regularly, you will prevent uneven wear of your chairs due to uneven frequency of use.

HOW TO TAKE CARE OF MY WOOD

Wood is a widely used material in the hospitality industry because of its natural look and versatility. It brings warmth and atmosphere to restaurants, cafés and hotels, and can be used for furniture, flooring and decoration. Wood is not only stylish but also durable and strong, which is important in the busy environment of the hospitality industry. Moreover, it provides an inviting and comfortable atmosphere for guests.

BEFORE USE

Before using your wooden furniture, we recommend applying an extra layer of protection. We offer the **Wood Care Kit** for this purpose. It contains a **sealer, cleaner & polish**. Before using your furniture, apply the **Natural Wood Sealer** with a soft cloth. Apply two coats for optimal protection. Let each coat dry for 30 min and sand the first coat with a scouring pad before applying the second coat for optimal results.

WOOD CARE KIT

MY WOODEN FURNITURE IS DIRTY

If your wooden furniture is soiled, you can use the **Wood Power Cleaner** from the **Wood Care Kit**. This should be applied with a soft cloth. Remove the dirt with the **Wood Power Cleaner** and then apply the **Natural Wood Sealer** for optimal protection. Does your product shine after using the **Natural Wood Sealer**? Then we recommend using the **Wood Matt Polish** from the **Wood Care Kit**. This will remove the shine marks.

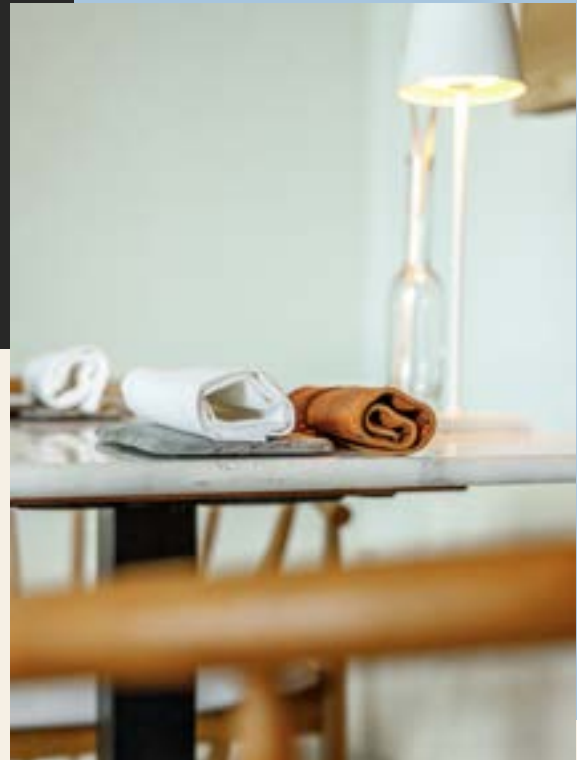

TIPS FOR ENJOYING YOUR WOODEN FURNITURE FOR AS LONG AS POSSIBLE

- Never use **aggressive cleaners** on the wood.
- Try to avoid **long exposure to direct sunlight**, if possible. This will reduce the risk of discolouring the wood.
- Be careful with **sharp objects** such as keys or pets with sharp nails, as these can damage or crack the wood.
- By **changing furniture** regularly, you will avoid uneven wear of your chairs due to uneven frequency of use.

HOW TO TAKE CARE OF MY MARBLE

Marble is a popular material in the hospitality industry because of its luxurious look and versatility. It exudes elegance and class. It can be used in furniture, flooring and decoration. Marble is not only stylish, but also durable and sturdy. Marble creates a sophisticated and inviting atmosphere for guests.

BEFORE USE

Before using your marble table, we recommend applying an additional protective layer. This is to prevent stains from soaking into your marble. We offer the **Ceramic Care Kit** for this purpose. Before using the furniture, apply the **Ceramic Care**. You can apply the **Ceramic Care** with a soft cloth. Apply this layer twice for optimal protection.

CERAMIC CARE KIT

HOW TO REMOVE STAINS FROM MY MARBLE

If your marble table is soiled, you should use the **Ceramic Cleaner** from the **Ceramic Care Kit**. It should be applied with a soft cloth. Remove the stain with the **Ceramic Cleaner** and then reapply the **Ceramic Care** for optimal protection.

TIPS FOR ENJOYING YOUR MARBLE FOR AS LONG AS POSSIBLE

- Marble consists largely of lime. Therefore, never use aggressive detergents when cleaning Marble. Products you use in the bathroom to combat limescale are therefore disastrous for your marble.
- Do not use acidic or abrasive products. Products like natural vinegar, anti-calcium, bleach and Cif will do irreparable damage to your marble.
- Use coasters.
- After use, clean the surface with a damp cloth.
- Beware of coffee, tea, carbonated drinks like cola, wine, vinegar, lemon (juice), orange (juice) and curry. Clean this immediately with a damp cloth when spilled.

HOW TO TAKE CARE OF MY PLASTIC

Plastic outdoor furniture is popular for its weatherproof, lightweight and easy-care properties. They are resistant to rain, sun and temperature changes, making them perfect for terraces, gardens and balconies. In addition, plastic furniture is easy to clean and available in various styles and colours, making it both practical and stylish for outdoor use.

MAINTENANCE

Outdoor plastic furniture is maintenance-free. However, we do have tips to help you keep your outdoor furniture looking great:

- Place chairs at an angle to the table so the water can run off.
- Clean your furniture at least once a year.
- Store the furniture under cover in winter.

MY PLASTIC FURNITURE IS DIRTY

Clean your furniture at least once a year.

Caution! Do not use a high-pressure cleaner for this, as this may cause cracks.

HOW TO TAKE CARE OF MY TABLE TOPS

Outdoor table tops are specially designed to withstand the changing weather conditions outside. They are often made of materials such as wood, plastic, composite, or tempered glass, which are durable, weather-resistant and easy to maintain. These table tops are ideal for terraces, gardens and hospitality venues, as they are not only sturdy and functional, but also stylish and match various outdoor furnishings.

MAINTENANCE

Outdoor table tops are maintenance-free. However, we do have tips for you to make sure your outdoor table tops stay beautiful.

- Clean them with lukewarm soapy water without aggressive cleaning agents
- Never put your tables upside down, this will prevent water from running off. If water stays in the top, damage can occur.
- When not in use, we recommend storing your table tops under shelter.

HOW TO TAKE CARE OF MY TEAK

Teak is one of the most prized woods for outdoor furniture because of its exceptional durability and weather resistance. This tropical hardwood contains natural oils that protect it from moisture, fungi and insects, making it perfect for outdoor use. Teak outdoor furniture has a beautiful, warm appearance that only gets more beautiful over time, even without treatment. It is an excellent choice for those seeking stylish and long-lasting outdoor furnishings.

BEFORE USE

When you order your teak furniture from us, it is still **untreated**. Before using the furniture, we advise you to treat it with **Teak Protector** from the **Higold Teak Care Kit**. The **Teak Protector** is a protector against moisture and dirt. Apply the **Teak Protector** with a cloth or brush and let the furniture dry for 24 hours.

MY TEAK FURNITURE IS DIRTY

When stains or soiling occur on your teak furniture, we recommend using the **Teak Cleaner** from the **Higold Teak Care Kit**. Apply the **Teak Cleaner** with a cloth and let it soak in for a while. Then rub the dirt off your furniture. **Note! Always rub with the grain of the wood.** When you have removed the dirt and the cleaner has penetrated, you can apply a new protective layer with the **Teak Protector**, so your furniture is optimally protected again. Repeat this treatment 2 to 4 times a year for optimal protection.

HIGOLD TEAK CARE KITS

TIPS FOR ENJOYING YOUR TEAK FURNITURE FOR AS LONG AS POSSIBLE

- Store the furniture dry when not in use.
- Make sure the furniture is not standing in water.
- Remove dirt in time to prevent it from soaking into the teak.
